Startup journal for experiment on 9-12-18. Defines well_number (start at 1, step up after each well). NOTE that pulseti me and pulsetime2 are switched from attempt 1; thus switching which population is which.

1: Start Continuous Focusing(0)
2: Delay(4, HOURS)
well_number = 1
3: size_dilate = 0
4: Component.405_Laser_Power.Position = 100
pulsetime = 200
pulsetime2 = 800
Total_Regions = 0
